**Project: SP17-096**  
**Parker Pointe Lot 10 located south and east of Parker Road and Stroh Road**

To Whom It May Concern,

CenturyLink has reviewed the proposed site plan for Parker Pointe Lot 10 as requested. CenturyLink has identified existing facilities within Parker Pointe, and our approval is conditional due to the existing facilities. All facilities will need to be identified by the Applicant and will need to be potholed to locate and determine if they are in conflict with the proposed improvements. In order to protect our existing facilities we will need to reserve rights and/or easements for these facilities as to where they fall. If our existing facilities are in conflict with the proposed improvements the Applicant or Developer will need to contact our local Engineer William Benson at (720) 578-5142 to make arrangements for relocation. If CenturyLink facilities are found within the building area as described, the Applicant will be responsible for all costs if CenturyLink cable is damaged or needs to be relocated, and within guidelines set by CenturyLink and all regulating entities.

**Sincerely,**

*Karen Caime*
