SUMMARY

Parker Water and Sanitation District (PWSD) would like to thank you in advance for completing this Industrial Pretreatment Information Form. All businesses that could potentially affect the process of the Parker Wastewater Treatment Facility must complete this form and return it to PWSD Industrial Pretreatment Department.

The PWSD Pretreatment Regulations apply to all non-domestic (non-residential) sources. Any business could potentially introduce pollutants into the Parker Wastewater treatment facility. These sources of “indirect discharge” are commonly referred to as industrial users (IUs). IUs can be as simple as an unmanned coin-operated car wash to a complex automobile manufacturer.

The Industrial Pretreatment Program’s goal is to prevent the discharge of pollutants, which could interfere with the operation of the wastewater treatment plant or its disposal of municipal biosolids. The Pretreatment Program attempts to prevent the introduction of pollutants into PWSD treatment plants that may pass through (the biological process) into rivers, creeks and streams causing toxicity or other impacts on the environment. These regulations describe the responsibility of the EPA, states, POTWs (Publicly Owned Treatment Works) and industrial users (UI’s) in protecting the POTWs, sewer systems, biosolids, receiving waters, and worker health and safety.

PWSD Industrial Pretreatment department is asking you to complete this form so the risk from your business, as well as other businesses located around you, can be accurately assessed in an emergency, it also provides essential information regarding what you have stored onsite and who can be contacted under such circumstances.

NOTE TO SIGNING OFFICIAL: In accordance with Title 40 of the Code of Federal Regulations Part 403 Section 403.14, effluent data provided in this Questionnaire shall be available to the public without restriction. Any other information provided may be claimed as confidential by the submitter. Such claim must be asserted at the time of submission by stamping the words “Confidential Business Information” on, or similarly identifying the information claimed as confidential. Requests for confidential treatment of information shall be governed by procedures specified in 40 CFR Part 2.

If there is any concern please contact Parker Water and Sanitation District’s Industrial Pretreatment Department at 720-842-4248, or e-mail Nancie at nhineline@pwsd.org with any questions or comments.

This form is to help Parker Water and Sanitation District adequately treat wastewater from the commercial and industrial customers. The District must comply with sewer treatment standards imposed upon the District by the Environmental Protection Agency (EPA), Colorado Department of Public Health and Environment (CDPHE) and other state and federal regulatory agencies. It is the District's intent to see that all businesses work cooperatively with the District to come into compliance with Parker Water and Sanitation District Rules and Regulations. This information could be used to determine if your business will require an Industrial Waste Permit.

Any questions regarding this form should be directed to Nancie Hineline at 720-842-4248, or e-mail at nhineline@pwsd.org. We are dedicated to providing excellent service to our customers and will answer any questions you might have.
