

Development Review Division

Community Development Department: *Town Hall / 20120 East Mainstreet Parker, CO 80138* Phone: 303.841.2332 Fax: 303.841.3223

MEMORANDUM

TO: Kevin Deis, Maverik, Inc.
FROM: Stacey Nerger, Senior Planner
DATE: February 3, 2023
SUBJECT: SP21-133 Lincoln Professional Park Filing No. 1 Lot 1 Site Plan

Listed below are the Planning Division's comments related to your applications, which must be responded to. If you wish to discuss a comment, please contact your Case Planner. Upon resubmittal, please sign and return this memo. A follow-up meeting with the reviewing agencies can be scheduled to provide additional guidance by contacting the Case Planner.

TOWN OF PARKER PLANNING DEPARTMENT CASE PLANNER: Stacey Nerger
EMAIL: snerger@parkeronline.org
PHONE: 303.805.3199

GENERAL PROJECT COMMENTS:

1. For your reference, any future approvals of this Site Plan are final. The Planning Division will use this plan set to determine compliance at the time of inspection for Certificate of Occupancy. Therefore, any changes to an approved Site Plan need to be reviewed and approved by the Planning Division through the appropriate process prior to inspection.
2. The Planning Division has referenced certain section of the Land Development Ordinance (LDO) and the Development Design Standards (DDS). A copy of these document are available at:
[LDO](#)
[DDS](#)
3. The Planning Division has made every effort to make this comment letter as comprehensive as possible. However, additional comments that have not been provided as part of this comment letter may be identified as part of future submittals, based on revisions to the project.
4. Signage was not reviewed, nor was it approved as part of this review. All signage will need to obtain a separate sign permit for all signage.
5. Prior to the approval of the replat, the applicant and the Town will need to have a signed Subdivision Improvement Agreement (SIA) in place. At the time of resubmittal, please provide the cost estimates so that staff may draft this agreement for your review.
6. The Town of Parker has implemented a naming convention for all applications. For all future documents that are uploaded to TRAKIT please ensure the submittal round is first, the name of the document is second and the name of the project is third. Staff will not refer the application out with this naming convention.
 - a. Example: "07 Site Plan"

General

1. An address for the Site and Convenience Store has been assigned. The Town works with Douglas County to create addresses. Addresses are assigned based on the full movement access into the site. Below is the email from Douglas County creating the address:

The proposed address for this facility is 9910 DRANSFELDT ROAD. This address is not to be used for any purpose other than for plan review until after this project is approved. Proposed addresses are subject to changes as necessary for 911 dispatch and life safety purposes.

Addresses are recorded by Douglas County following all necessary approvals. Send confirmation of project approval to this office by email. Contact DCAddressing@douglas.co.us or 303.660.7411 with questions.

Please ensure that all building permit plans include the correct address for the property.

Comment Addressed: Yes No

Response:

Parking

Staff has no additional comments on the parking.

Landscape Plan

Staff has no additional comments on the landscaping.

Lighting

1. Please provide a picture of the proposed LED strip lighting used on an existing building. The Town has received requests for these types of lights and need this information to determine that it meets the requirement to be fully shielded. This typically requires the LED strip to have a cover to direct the light downward. An image of an existing building with these lights used would also be sufficient.

Comment Addressed: Yes No

Response:

Development Design Standards

Staff has not additional comments on the elevations.

OUTSIDE REFERRAL AGENCY COMMENTS

Please address all outside referral agency comments with a written response. At the time this letter was drafted, the following agencies have provided comments for the applicant to address. **It is in the**

applicant’s best interest to continue to monitor the project in TRAKiT as additional comments may be posted after the release of this letter.

- Town of Parker Stormwater – CD’s, Drainage Plan & Site Plan
- Town of Parker Engineering – CD’s
- Parker Water and Sanitation District (PWSD)

Attached to the Planning comments is a printout of all review comments on the project. These comments include all comments from the first submittal to the most recent. They are organized from oldest to most recent. Therefore, the comments from this referral can be found at the end of the document.

11/3/2021	11/18/2021	11/10/2021	COMPLETENESS REVIEW	Stacey Nerger	REVISIONS REQUIRED	
-----------	------------	------------	---------------------	---------------	--------------------	--

Notes:

Cassie,

I apologize for the delay, but I have finished the Completeness Review for the Maverik Station at the Lincoln Professional Park. Below are a list of items that are required to deem the application complete. Please submit the required documents as soon as possible to get the application out for referral.

1. Application Fees - \$2,115.00 (An addition \$52.88 will apply if paid by credit card)
2. Legal Description of the property
3. Vicinity Map of the property (This can be added to the cover page of the Site Plan set and can occur at the time of the 2nd referral)
4. Chargeback Agreement – Attached
5. Color and Material Board (This is a physical board that needs to be delivered to Town Hall. This can be submitted at the time of 2nd referral)
6. Public Notice Requirements Apply – Two signs will need to be posted on the site. I will send a separate email to FastSigns who the Town contracts with to create the signs. You will need to create an account with FastSigns Parker to pay for these signs. These signs need to be installed on the property prior to the 2nd referral.

Please let me know if you have any questions.

Thank you,
Stacey

------------	-----------	------------	-------------	-------------	-------------------	-----------

Notes:

As applicable:

Provide acknowledgment of the comments noted below:

Building/Fire Life Safety permit application will not be accepted/reviewed until the associated site plan is approved. All plans submitted for Town of Parker Building review must meet the 2021 I-Codes, the 2020 NEC, and the correctly referenced NFPA editions noted in applicable codes (i.e. 20121 IFC references the 2019 edition of NFPA 13 and the 2019 edition of NFPA 72).

NFRC certificates, interior/exterior lighting along with the mechanical and envelope compliance path must be included with the original submittal. All Fire Permit applications and inspections will be handled through the Parker Building Division. All land use applications and the associated Grading Permit must be approved/issued per Planning and Public Works prior to the Building Permit being approved/issued. Note - a building permit is required for commercial fencing, pergolas, outbuildings, outdoor lighting, and for retaining walls that are four feet or taller... as measured from the base of the retaining wall footing.

All lot specific permit applications will be verified for setbacks, utility easement encroachments and conformance to planning design minimum requirements (the Matrix). Model homes cannot be constructed until curb, gutter, first lift of asphalt, fire hydrants and street signage are completed to provide proper emergency access measures. No permanent construction is allowed in the utility easements such as counterforts or wall buttresses. This will be verified during the building permit application review for each individual lot. Retaining walls greater than 4' from base of footing or bottom course requires separate building permit; plans must be stamped by a qualified professional.

Buildings in floodplain need to be satisfied by Storm Water before construction on these lots can occur.

Buildings

When resubmitting, the applicant shall provide acknowledgment of the requirements noted below:

Building/Fire Life Safety permit application will not be accepted/reviewed until the associated site plan is approved. All plans submitted for Building Department review must meet the 2021 I-Codes, the 2020 NEC, and the correctly referenced NFPA editions noted in applicable codes (i.e. 2021 IFC references the 2019 edition of NFPA 72 and the 2019 edition of NFPA 13). Note - the Town of Parker will have formally adopted the 2021 ICC code family and the 2020 NEC with an effective date of January 1, 2022.

NFRC certificates, interior/exterior lighting along with the mechanical and envelope compliance path must be included with the original submittal. All Fire Permit applications and inspections will be handled through the Parker Building Division. All land use applications and the associated Grading Permit must be approved/issued per Planning and Public Works prior to the Building Permit being approved/issued. Note - a building permit is required for commercial fencing, pergolas, outbuildings, outdoor lighting, and for retaining walls that are four feet or taller... as measured from the base of the retaining wall footing.

11/24/2021	12/13/2021	12/27/2021	Cherry Creek Basin Water Quality Authority 20	Rich Borchardt	ADVISORY COMMENTS	See Notes
------------	------------	------------	---	----------------	----------------------	-----------

Notes:

1. The Authority's Control Regulation 72 requires construction and post-construction Best Management Practices (BMPs).
2. No exceptions taken with the proposed construction or post construction BMPs.
3. No further referrals to the authority on this project are required.

11/24/2021	12/28/2021	12/27/2021	CONST PLANS - ENVIRONMENTAL	Michael Walton	REVISIONS REQUIRED	See Notes and Engineering Memo
------------	------------	------------	--------------------------------	----------------	-----------------------	-----------------------------------

Notes:

GENERAL COMMENTS

1. Please utilize the Town's standard labeling, nomenclature, and blocks to the extents feasible.
2. Omit all existing and proposed utilities from the CBMP Drawings, except those relating to stormwater.
3. Please consider connecting the Stabilized Staging Area (SSA) to the Vehicle Tracking Control (VTC) as shown on the Town's standard detail. This helps limit the amount of traffic required to cross the disturbed site and decreases overall tracking from the site.
4. Label and identify the ratio of all slopes that are 4:1 or greater.
5. Replace the Sediment Control Log (SCL) shown in the pond with one call out of Detention Pond Protection (DP).
6. Provide and identify Portable Toilet Protection (PTP).
7. Utilize the four standard types of inlet protection provided in the Town's Standard details.
8. Include within the plan set all of the town's 31 CBMP Notes & Details.
9. Provide a legend of symbols to correspond to the Town's 31 CBMP Notes & Details.
10. Provide and identify Debris and Trash Control (DTC) on all existing paved areas adjacent to the site and on all proposed paved areas interior to the site.
11. Add the following note to the initial and final CBMP plan sheets:
"LOT PROTECTION (LP) IS REQUIRED ON COMMERCIAL LOTS WHEN LANDSCAPING IS NOT POSSIBLE."
12. Add the following note to the initial and final CBMP plan sheets:
"TO REDUCE THE POTENTIAL FOR CLOGGING OF DEBRIS GRATES, NO STRAW MULCH SHALL BE USED WITHIN THE EXCESS URBAN RUNOFF VOLUME OF A DETENTION BASIN. INSTEAD, EROSION CONTROL BLANKET SHALL BE INSTALLED FOR A WIDTH OF AT LEAST 6-FEET ON BOTH SIDES OF THE CONCRETE LOW FLOW CHANNELS OR UP TO A DEPTH OF 1-FOOT IN SOIL RIPRAP OR BENCHED LOW FLOW CHANNELS. ADDITIONALLY, HYDRAULICALLY-APPLIED WOOD FIBER MULCH, STABILIZED FIBER MATRIX, BONDED FIBER MATRIX, OR FLEXIBLE GROWTH MEDIUM SHALL BE USED IN ALL OTHER AREAS WITHIN THE EXCESS URBAN RUNOFF VOLUME OF THE DETENTION BASIN. THE BLANKET AND HYDRAULICALLY-APPLIED MULCH SHALL COMPLY WITH THE MATERIALS AND INSTALLATION REQUIREMENTS FOR EROSION CONTROL BLANKETS AS REQUIRED BY THE TOWN'S CBMP PROGRAM, AND WHERE APPLICABLE, THE PRODUCT MANUFACTURER."

INITIAL CBMP PLANS

13. Please utilize only one means of perimeter control along any single extents of the site. Perimeter control should be Silt Fence (SF) when downstream of disturbed areas and Construction Fence (CF) when upstream of disturbed areas.
14. Provide and identify the Vehicle Tracking Control (VTC) and Stabilized Staging Area (SSA) on the initial plan sheet as well.
15. Provide and identify Surface Roughening (SR) in all proposed landscaped areas.

INTERIM CBMP PLANS

16. Provide and identify sediment control logs (SCL) along all paved areas adjacent landscape/pervious areas. This includes landscape islands and all pedestrian walks.
17. Provide and identify Erosion Control Blanket (ECB) on all slopes steeper than 4:1.
18. Provide and identify Masonry Work Protection (MWP) for the site.

FINAL CBMP PLANS

19. Provide and identify Seeding Mulching and Crimping (SMC) in all proposed landscaped areas.

11/24/2021	12/28/2021	12/27/2021	CONST PLANS - STORMWATER	Michael Walton	REVISIONS REQUIRED	See Notes and Engineering Memo
Notes: 1. All storm sewer systems collecting drainage from the proposed drive aisles and parking areas shall be considered public and must adhere to the standards and specifications outlined within Section 6.3.3 of the Town's SDECM, including the use of 18-inch minimum RCP and dedication of drainage easements. 2. Provide a more unique line type for the proposed storm sewer in plan view. Currently the linework is easily lost on the plans. 3. Provide a minimum of a 0.2-foot drop between any invert into a storm sewer structure and the invert out of the storm sewer structure. 4. Provide CDOT standard details for all proposed storm sewer infrastructure. 5. Provide the Town's standard Manhole Cover detail. Reference RDCCM Appendix A for the most current form of the detail. 6. Provide and identify the major and minor storms' hydraulic grade lines on all storm sewer profiles.

Notes:

SP21-133 MAVERIK CONSTRUCTION PLANS – ENVIRONMENTAL COMMENTS

GENERAL COMMENTS

- Please note that the CBMP estimate will be reviewed with the Grading Permit after all CBMP comments have been addressed and the site plan is near approval.
- Please show Lincoln Professional Park, Lot 1 in the Title Block along the Right Edge of plan sheets. Please note, the address 11964 Dransfeldt Road is an old Douglas County-based address and will likely be changed to correspond with the Town’s surrounding addresses.
- Please add notes stating – “The VTC pad for a CWA does not need to conform to the formal VTC detail”, and “The true location of the CWA may be determined by the Town and the ECS”.
- Please add a note stating – “The true location of the Portable Toilet Protection (PTP) may be determined by the Town and the ECS”.
- Please show multiple Portable Toilet Protections (PTP), a site this size must have at least 3.
- Please use the Towns legend of symbols and keys to correspond to the Town’s 31 CBMP Notes & Details on the Initial and Interim/Final CBMP plan sheets.
- Please reload the 71 pages of the Town of Parker’s CBMP Legend, General Notes & Details in the order of Legend, General Notes, and Details, placing the details in alphabetical order as provided in our Storm Drainage and Environmental Criteria Manual.
- Please add a callout/label on all properties adjacent to the project stating: “No Work shall occur in these areas”.
- Please add a note stating: “Any bulk fuel storage requires a Fire Life Safety permit from the Town prior to installation. Contact Randy Capra at rcapra@parkeronline.org or 303-805-3163.”

INITIAL CBMP PLANS

- Please provide and identify Rock Socks (RS) with orange delineators along the curb from the VTC out on to Lincoln Avenue to help control sediment washing off site from track out.
- Please provide and identify Rock Socks (RS) protecting the concrete inlet structure and forebay on the north end of the detention pond.
- VTC on the plans must show a length of 50-feet and have construction fence or jersey barriers along the sides to ensure vehicles drive the entire length of the VTC.

INTERIM/FINAL CBMP PLANS

- Please provide and identify Rock Socks (RS) with orange delineators along the curb from the VTC out on to Lincoln Avenue to help control sediment washing off site from track out.
- Please provide and identify Rock Socks (RS) protecting the concrete inlet structure and forebay on the north end of the detention pond.
- Please provide and identify Seeding Mulching and Crimping (SMC) and Temporary Irrigation (TI) on the plans for all areas of permanent native vegetation.
