Re: Parker + Pine Building III Ramp Revision, 9550 Twenty Mile Road, Parker, CO

To whom it may concern,

As requested by Alex Mestdagh, Engineering Services Manager of the Town of Parker, we re-routed the ADA ramp to the west side of the building to increase the separation from the storm drain. We are able to incorporate this revision and still comply with ADA requirements and have updated the plans accordingly.

Best regards,

Medley Byers
