Hi Stacey,

Please see the concern below. I will reassign this CRM to you.

Thanks,  
Pam

Town of Parker CRM Tracking Number: CRM23-000212 Assigned to:

A CRM has been submitted by a customer on 04/14/2023. This CRM is currently assigned to your group. This CRM may be re-assigned as determined by your departmental procedures. Thank you in advance for your prompt attention to this matter.

CRM information:

Regarding planned Gas station in the middle of trails at crowfoot Residential Community

Im living next to the Commercial Land and really worried about the health and safety of us and our kids due to Gas station coming up on the corner of Bayou Gulch and North Pinery ( Case Number SP22-119) . This is in the middle of community and will cause pollution and attract lot of stranger traffic 24/7. This is known statically that gas stations are the places where all sort of crimes could happen and will pose a big danger for our kids as its close the Society park adjacent to several homes where Kids will be playing in their frontyards. Also it will drastically affect the quality of the community and price value of the houses in the community.

I request you to please reconsider the decision of considering a gas station in the middle of the community.

If you have additional questions or need more information to complete this CRM please see the customer's information within the specific CRM CRM23-000212.

Sincerely,  
Town of Parker CRM Team
