RE: **Site plan Narrative**

To Whomever it concerns,

The Site Plan Adjustments submitted here within include updates to lighting, elevations, bike rack orientation, and the outdoor grill layout. Please see an explanation of each of those changes below:

Lighting- we have included a Site photometric and Site plan update with a fixture type added.

Exterior Elevations- we updated trim colors, adjusted the stone, and deleted the awnings.

Bike Racks- we shifted that location Southeast.

Outdoor Grill Layout- we updated the layout from an L-shape to Linear.

Respectfully,

Salil Nair AIA . NCARB . MBA
President . Licensed Architect
