Subject: Acceptance and Approval of Common Area Landscaping  
Trails at Crowfoot Filing No. 7  
SUB17-048

Dear Ms. Ginter;

The Town of Parker Planning Division has performed an inspection of the landscaping and associated improvements contained in SUB17-048 for Trails at Crowfoot Filing No. 7. This correspondence is to inform you that staff has determined that the landscaping and associated improvements have been installed in substantial compliance with the approved plans and the installed landscaping is approved for the purposes of the Town. Please be advised of the following:

1. The indicated acceptance and approval only applies to the common areas (tracts) stated above, this does not pertain to tree-lawn landscaping.
2. All plantings shall be maintained in a healthy and attractive manner, as determined by the Town. Maintenance shall be conducted by the property owner of record, the property owner's agent or tenant or a homeowners' association which has assumed landscape maintenance responsibility. All ornamental landscaping shall be maintained free from disease, pests, weeds and litter. Maintenance shall include, but not be limited to, watering, fertilizing, weeding, cleaning, mowing, edging, mulching, pruning, trimming, spraying, cultivating or other maintenance as needed and in accordance with acceptable horticultural practices. Areas of native or naturalized landscape are exempt from this level of maintenance. Acceptable maintenance of native plants includes, but is not limited to, removal of dead or diseased plants, weed control and seasonal mowing.
3. Dead plant materials shall be removed and replaced with healthy planting materials of comparable size and species that meet the original intent of the approved landscape design within forty-five (45) days of their death, unless seasonal conditions prohibit removal and replacement. In such case, the removal and replacement shall occur within a reasonable period of time approved by the Town.
4. Nonliving landscape materials such as rock, stone, bark chips and shavings which no longer cover the area in which they were originally deposited shall be regularly replenished to maintain the full coverage to a minimum depth of three (3) inches for rock mulches and four (4) inches for wood mulch.
5. Landscaping structural features (e.g., fencing, walls, and planter boxes) and site furnishings shall be maintained in a sound, structural and attractive condition.

6. Irrigation systems are to be monitored and adjusted periodically to ensure that the water demands of all plant materials are being met.
7. Irrigation system repairs shall be made within seven (7) days of discovery of damage, unless seasonal conditions prohibit repairs.
8. Landscaped areas shall be free from trash and debris.
9. Failure to replace dead landscape materials within a reasonable period of time, as specified in Paragraph (2) above, shall be considered a violation of the approval and is subject to the enforcement and penalty provisions of the Town.
10. Alterations to the accepted landscaping may require Town approval. Please contact the Planning Division at 303.841.2332 if any changes are desired to the accepted landscaping.

Please feel free to contact me at 303.841.2332 should you have any questions.

Sincerely,

Stacey Neger  
Senior Planner
