add a label as to which plat dedicated these streets

add ties to tract f and block 2 that are easy to use

show a detail in these areas as it is not clear what these short line segments are - they don't look like easement lines

add notes or add to dedication statement as to who the access easement goes to and who maintains it

it looks like the IREA easement is directly over the top of the public utility easement - is that correct? if so any utility can install facilities in the easement which might cause conflict. check to see if the IREA easement needs to be by separate document - i believe so.

add lot or tract name
