

### Compark Village South Filing No 1, 2<sup>nd</sup> Amendment

Subdivision application SUB21-065 is requesting to vacate the existing 19.5-ft by 55.0-ft portion of Right-Of-Way outlined in Exhibit A below in red that is no longer needed. When the original Compark Village South Filing No 2, 1<sup>st</sup> Amendment was recorded, it was anticipated that Deertrack Lane would continue from its current path on the western adjacent property through the intersection of Wolf Fox Street and east into Lot 1 forming the existing ROW. With the current CVS Flg 1, 2<sup>nd</sup> Amd plat and associated Public Improvement Construction Plans, Deertrack Lane is no longer proposed to extend to the east/northeast and therefore, the extension of the ROW is to be vacated as part of subdivision application SUB21-065.

In addition to the ROW vacation, the public storm sewer at the intersection of Deertrack Lane and Wolf Fox Street will be modified to stay within the new ROW limits. Changes to the Water & Sanitary sewer system at this intersection will also be modified and the existing 20-ft SVMD Easement (Rec No 2017038326) will be vacated. The purpose of these vacations and modifications is to allow the development within Lot 1 CVS Flg 1, 2<sup>nd</sup> Amd to work cohesively and to remove unnecessary infrastructure that will not be utilized.
